It should not be a problem as the length of this part is less than one week. However, for Non-EU citizens we do strongly recommend to contact or check the Spanish Consulate website. Policies may change depending on each country. Controlmad will provide all necessary documents needed to get the visa (letter of invitation, payment invoice...).

Problems with travel restrictions In case of Force Majeur situations (i.e. it is not allowed to leave your country or go to Spain, like Covid-19 situation), it has to be proven with an official website, document or paper that justifies the reason.

In that case, Controlmad will give you access to lectures and exercises on-line and check the digital fabrication process with a feedback of the results, including assembling. Besides, the objects may be manufactured with that files at your nearest FabLab (not part of the course fee).

Yes, if there are spots available. You would need to pay the difference of the PART I and the full registration fees, currently shown at the web page.

Can I participate in PART II On-site for next edition?
